

SOIL FERTILITY WORKSHOPS 2026

ONTARIO LEVEL 2

Interpretation of Soils: Making Soil and Plant Tissue Recommendations Make Sense

This 1.5-day seminar is designed to help you make the most of your soil and plant tissue analysis. We will cover a number of topics on soil and plant tissue on the first day. The second day will be reserved exclusively for training on how to make soil and plant tissue recommendations. In order to get the most out of this seminar, attendees should already have an understanding of soil and plant tissue tests.
